Modified: 2008-09-11

Page: 2 av 3

Environmental precautions: Avoid release of large amounts into drainage systems, ditches or water courses.

Methods for Cleaning Up: Contain and absorb with a non-flammable material such as sand, dirt or vermiculite. Collect in an appropriate closeable container and leave it for proper disposal (see section 13). Smaller spills can be flushed with a lot of water.

7. HANDLING AND STORAGE

Handling: Avoid spillage, skin and eye contact. Follow normal industrial working practices. Do not smoke, eat or drink while handling. Wash hands during pauses and when the work is completed. Change working clothes as needed.

Keep the packaging well sealed. Opened packages should be carefully resealed and stored upright to prevent leakage.

Storage: Stored in an upright position in the well-sealed original packaging. Store away from the risk of frost. Shelf life: 36 months.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limit values: -

Occupational exposure controls: Avoid direct contact with the skin or eyes. Wash hands carefully during pauses and when the work is completed. Remove soiled clothing and wash before using. Running water should be easily available near the working site. The working site and working methods should be arranged so direct contact with the product is avoided.

Personal precautions:

Hand protection
Use appropriate protective gloves when needed to avoid prolonged and repeated skin contact.

Eye protection
Use protective goggles or a visor if there is a risk of splashing.

Skin protection
Use appropriate protective clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid
Colour: Colourless
Density (kg/l): 1.02
pH (in concentrate) 10,5
Viscosity (mPas): 350

10. STABILITY AND REACTIVITY

Stability: Stable product when handled and stored normally.

11. TOXICOLOGICAL INFORMATION

Inhalation: Does not release fumes.

Skin contact: Can irritate the skin.

Eye contact: Contact with eyes can cause irritation.

Ingestion: Ingestion can cause discomfort.
