## ■ SECTION 07 SYMPTOMS OF OVEREXPOSURE

Symptoms of Ingestion: If ingested in significant quantity may cause diarrhea.  
Symptoms of Inhalation: If misted in concentrated form, which is improper use, can cause irritation of mucous membrane, nose, eye and throat.  
Symptoms of Skin Contact: May cause dermatitis or irritation in some individuals upon prolonged contact. Localized skin defatting can be expected from concentrated detergent on long contact.  
Symptoms of Eye Contact: Causes painful stinging or burning of eyes and lids, watering of eye.

## ■ SECTION 08 EMERGENCY FIRST AID PROCEDURES

For Ingestion: DO NOT induce vomiting. Have the individual drink one or more full glasses of milk or water. If vomiting occurs, give fluids again. NEVER give anything to an unconscious person. Call a physician or your local Poison Control Center. Treatment should be directed at the control of symptoms and the clinical condition of the patient. There is no specific antidote.  
For Skin: As for all foreign materials, wash off concentrate or diluted use solution with copious amounts of water. Remove clothing, which has been saturated by concentrate. Do not allow prolonged contact with the concentrated undiluted material as toxic amounts could be absorbed over an extended time. Thoroughly wash affected clothing and shoes.  
For Eyes: PROMPTLY flush with large amount of water for at least 15 minutes, occasionally lifting the lower and upper lids. See a physician if irritation persists.  
Medical Conditions  
Aggravated by Exposure: No data found.

## ■ SECTION 09 OCCUPATIONAL CONTROL PROCEDURES

Ventilation: None normally required.  
Respiratory Protection: Not required under normal working/use conditions.  
Eye Protection: Not normally required. Use if in specific applications splashes or mists will get into eyes.  
Skin Protection: Not normally required.  
Personal Hygiene: As in handling any detergent, wash thoroughly after using.

## ■ SECTION 10 PRECAUTIONS FOR SAFE HANDLING STORAGE AND USE

Precautionary Measures: Avoid contact with eyes and prolonged contact of concentrate with skin. Avoid breathing misted vapors.  
Spills Clean-up Procedures: Concentrated materials are packed in unit-dosed bags limiting any spills to very small quantities. Paper toweling or mopping is usually sufficient.  
Disposal Method: Normal waste disposal of empty bags in accordance with state and local regulations or recycle after rinsing package.  
Storage: Unaffected by freezing.
