

# MATERIAL SAFETY DATA SHEET

## SECTION 1 – PRODUCT/MANUFACTURER'S IDENTITY

Product Name: Floor Conditioner and Neutralizer  
Formula ID Number: FP10  
MSDS File Name: FLOOR COND AND NEUT  
EPA Reg #: None  
DOT Hazard Class: None  
Company: Stearns Packaging Corporation  
4200 Sycamore Avenue (53714)  
PO Box 3216  
Madison, WI 53704-0216  
DOT Shipping Name: Compound, cleaning, NOI, powder. Item 48581, Class 55  
Phone: 800-655-5008  
Fax: 608-246-5149  
NSF Certified: C1, 7/20/04  
Website: www.stearns pkg.com  
EPA/DfE Recognized: Yes

| Concentrate |                | In Dilution | HAZARD RATING                                                              |

**Emergency Contact: CHEM-TEL, 800-255-3924**

Abbreviation Key: N.A.=Not Applicable,  
N.D.=Not Determined

## SECTION 2 – HAZARDOUS INGREDIENTS / IDENTITY INFORMATION

| CHEMICAL IDENTIFICATION | CAS NO.  | HAZARD   | PEL(ppm) | TLV(ppm) | %(Optional) |
|-------------------------|----------|----------|----------|----------|-------------|
| Citric acid             | 77-92-9  | Irritant |          |          | >50%        |
| Sodium carbonate        | 497-19-8 | Irritant |          |          | 10-20%      |

SARA Section 313 Title III Notification Required: No

## SECTION 3 – PHYSICAL DATA

|                              |                               |                                    |                        |
|------------------------------|-------------------------------|------------------------------------|------------------------|
| Appearance and Odor:         | Solubility in water: Complete | Vapor Pressure (mm Hg): N.D.       | pH (Concentrate): N.D. |
| White granules and crystals; | Boiling Point: N.D.           | Vapor Density (Air=1): N.D.        | pH (1% Solution): 4.4  |
| Unscented                    | Melting Point: 153°F          | Evaporation Rate (Water=0.3): N.D. | Specific Gravity: N.A. |

## SECTION 4 – FIRE AND EXPLOSION HAZARD DATA

|                                                 |                                                                                                        |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Flash Point and Method: Non-combustible, >200°F | Extinguishing Media: N.A.                                                                              |
| Flammable Limits: LEL: N.A.<br>UEL: N.A.        | Special Fire Fighting Procedures: Use full protective clothing and self-contained breathing apparatus. |
|                                                 | Unusual Fire & Explosion Hazards: None                                                                 |

## SECTION 5 – REACTIVITY DATA

|                                                               |                                                                   |
|---------------------------------------------------------------|-------------------------------------------------------------------|
| Chemical Stability: Stable: <u>X</u> Unstable: _____          | Hazardous Polymerization: May Occur _____ Will Not Occur <u>X</u> |
| Conditions to Avoid: Freezing and extreme heat.               | Hazardous Decomposition or By-Products: None known                |
| Incompatibility (Materials to Avoid): Strong acids and bases. |                                                                   |

## SECTION 6 – HEALTH HAZARD DATA/FIRST AID PROCEDURES

|                                                                                                                                                                      |                                                                                                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Health Hazards (Acute and Chronic): Mildly acidic; may cause burning to eyes and respiratory passages. Possible irritant to skin over prolonged periods of exposure. | <u>Emergency and First Aid Procedures:</u>                                                                                                                                                                  |
| Signs and Symptoms of Exposure: Irritation of exposed tissues, especially eyes, skin, throat, nasal cavities, and other mucous membranes.                            | Eyes: If contact occurs, flush with plenty of cool water for 15 minutes. Consult a physician.                                                                                                               |
| Medical Conditions Aggravated by Exposure: N.D.                                                                                                                      | Skin: May be irritating to skin. Flush with water and wear gloves in the future to minimize exposure. Wash hands thoroughly after handling. Discontinue use if irritation persists and consult a physician. |
| Carcinogenicity: IARC Monographs? Yes _____ No <u>X</u>                                                                                                              | Inhalation: Remove from exposure. Obtain medical attention immediately.                                                                                                                                     |
| NTP? Yes _____ No <u>X</u> OSHA Regulated? Yes _____ No <u>X</u>                                                                                                     | Ingestion: May be harmful if swallowed. Drink large amounts of water or milk.                                                                                                                               |
|                                                                                                                                                                      | <b>DO NOT</b> induce vomiting. Get medical attention immediately. Avoid contamination of foods.                                                                                                             |

NOTE TO PHYSICIAN: No specific antidote. Use supportive care. Treatment should be based on physician's judgment in response to the patient's reaction.

## SECTION 7 – PREVENTATIVE AND CONTROL MEASURES

|                                                                                                                                                  |                                                                                                                                                                                                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ventilation: Local Exhaust: Recommended for control of dusts.<br>Mechanical: Recommended for control of dusts.                                   | Steps to be Taken if Material is Spilled or Released: Sweep up for salvage or disposal. Take care to avoid contact with large amounts of dust.                                                      |
| Skin Protection: Use neoprene, rubber, or other chemical resistant gloves.<br>Wear protective clothing to prevent repeated or prolonged contact. | Waste Disposal: Comply with all local, state and federal regulations. Consult your state DNR or the EPA for specific questions. Wastewater should never enter a fresh water body without treatment. |
| Eye Protection: Avoid eye contact.                                                                                                               | Handling and Storage: Wear all recommended safety gear. Do not mix with other chemicals or cleaning agents. Avoid contact with dust. Avoid high humidity as it causes caking.                       |
| Respirator Protection: In general, respirators are not needed if the product is used in a well-ventilated area                                   |                                                                                                                                                                                                     |
| Other Precautions: Keep out of the reach of children.                                                                                            |                                                                                                                                                                                                     |

## SECTION 8 – OTHER REGULATORY INFORMATION

California Safe Drinking Water and Toxic Enforcement Act of 1986: No chemicals listed by California are present at a level that poses a significant risk of causing cancer or reproductive toxicity.

### CANADA REGULATORY INFORMATION -

WHMIS (Canada) Hazard Classification: Class D2B: Toxic Material  
Transportation of Dangerous Goods Regulations: Not Regulated by TDGR

rev. 2/16/12

This MSDS data relates only to the material designated and does not relate to its use with any other material or process. The data is believed to be accurate. However, since use conditions vary and are outside our control, Stearns Packaging Corporation makes no warranties, expressed or implied, and assumes no liability for failure to follow directions and safety precautions.
