Precautions; Handling & Storing: Store in a cool, dry, well ventilated area. Keep product temperature below 85 F and above 32 F. Store in

upright vented, closed containers protected from direct sunlight. Do not store near acids, heat or oxidizable materials or organics. Empty containers retain product residue, continue to obey safety and handling precautions. Contact with ammonia and amine-based compounds can generate toxic chloramine

compounds. Contact with acids can release dangerous chlorine gas.

Other Precautions: Keep out of reach of children. Mix only with water. Do not use or mix with other cleaning products.
