## SECTION IX: SPECIAL PRECAUTIONS

Precautions; Handling & Storing: Store in a cool, dry, well ventilated area. Keep product temperature below 85 F and above 32 F. Store in upright vented, closed containers protected from direct sunlight. Do not store near acids, heat or oxidizable materials or organics. Empty containers retain product residue, continue to obey safety and handling

Other Protective Equipment: Use of rubber aprons; rubber boots and other protective clothing is recommended where contact with body

may occur. Eye wash stations and washing facilities should be readily accessible in areas where undiluted product is handled. See 29 CFR 1910.132-138 for further guidance.

precautions. Contact with ammonia and amine-based compounds can generate toxic chloramine compounds. Contact with acids can release dangerous chlorine gas.

Other Precautions: Keep out of reach of children. Mix only with water. Do not use or mix with other cleaning products.
