If material is spilled, use ordinary housekeeping procedures - mopping or wet vac.
Dispose of in accordance with local ordinances
No precautions in handling and storing. Does not require "HAZARDOUS" or "POISONOUS" label

CONTROL MEASURES

Does not require local exhaust.
Protective Gloves are optional
No other protective clothing or equipment is necessary
If odor is objectionable, rinse with damp mop or pad or cover with paper while drying

PRODUCT APPLICATION

ARGOSHEEN® Carpet and Upholstery Cleaner (Spotter), water soluble, biodegradable, non-foaming and non-residue forming, applied by hand, cotton bonnets, sprayer, scrubbing machine or steam/hot water extraction systems, for use in removing soil from a wide variety of carpeting and upholstery materials (both synthetics and natural blends)- totally color safe, inhibiting mildews and assisting in static control. Safe for stain resist carpets. All purpose spotters included in formula so that pre-spotting is eliminated.

ARGOSHEEN® is primarily used as a carpet and upholstery cleaner. Other applications include: cleaner for tile floors, chrome, windows, removal of soap film and removal of some waxes.

Available in plastic gallons (4/1), plastic reusable 5-gallon pails with handles, metal 55 gallon drums with stirring units and 19 oz. Aerosol cans.

This MSDS is confidential information provided for safety purposes only and shall be considered damaging to ARGO & Company, Inc. if given to a third party for any reason, other than a Doctor of Medicine or Administrator of First Aid.
