

Spartan Chemical Company, Inc. Material Safety Data Sheet

SECTION I: PRODUCT INFORMATION

Product Name or Number (as it appears on label):

SPARCHLOR CHLORINATED SANITIZER

Product Number: 3090

Product Division: Janitorial

Spartan Chemical Company, Inc.

1110 Spartan Drive Maumee OH 43537 Product/Technical Information: 1-(800)-537-8990

Medical Emergency: 1-(888)-314-6171 (24 hours)

Chemical Leak/Spil Emergency: CHEMTREC 1-(800) 424-9300 (24 hours)

Shipping Description: Corrosive liquids, n.o.s., 8, UN 1760, III, (contains sodium hypochlorite)

NFPA Ratings:	HMIS Ratings:
Health: 3 - Serious	Health: 3 - Serious
Fire: 0 - Minimal	Fire: 0 - Minimal
Reactivity: 0 - Minimal	Reactivity: 0 - Minimal
	Pers. Prot. Equip.: See Section VIII

SECTION II: HAZARDOUS INGREDIENTS

(Listed when present at 1% or greater, carcinogens at 0.1% or greater) All component chemicals are listed or exempted from listing

on the "TSCA Inventory" of chemical substances maintained by the U.S. Environmental Protection Agency.

				Table Z-1-A	_	
Chemical Name(s)	%Wt	CAS Registry No.	TWA mg/m³	STEL mg/m³	CEILING mg/m³	NTP, IARC or OSHA Carcinogen
Sodium hypochlorite Sodium hydroxide	10-16 0.2-2.0	7681-52-9 1310-73-2	Not Established 2	Not Established Not Established	Not Established Not Established	No No

SECTION III: PHYSICAL DATA

Boiling Point: Approx. 220 °F	Vapor Pressure:	Unknown
Vapor Density (AIR = 1): N/A	Solubility in Water:	Complete
pH: Approx. 12.5	Specific Gravity (H ₂ O=1):	1.1 - 1.26
Evaporation Rate (but.ace.=1): < 1	Percent Solid by Weight:	13-15
Physical State: Liquid		
Appearance & Odor: Greenish-vellow liquid, chlorine odor		

SECTION IV: FIRE & EXPLOSIVE HAZARD DATA

Flash Point: >	> 220°F	Method Used: ASTM-D56
Flammable Limits: N		Flame Extension: N/A
Extinguishing Media:	Flood with water or carbon dioxide.	
	Wear NIOSH certified gas mask and body contact. Stay up-wind and out of	full protective clothing and eye wear. Avoid inhalation of fumes and of low lying areas.
	When heated or in contact with many Contain run-off water to prevent envir	and produce irritating vapors, chlorine gas and oxides of sodium. metals, this product gives off oxygen which may increase fire hazard. ronmental damage. Toxic fumes may be liberated by contact with occur with oxidizable materials and organics.

Threshold Limit Value: Effects of Overexposure-		Primary Routes of Entry: Inhalation, Skin, Eyes, Oral
		stion causes burns and irritation of mouth, throat, esophagus and
	other digestive system tissues immed	liately on contact.
		eye contact causes severe pain, irritation, damage and reddening.
	Prolonged exposure may cause blind	
	Causes severe damage to skin.	Exposure to skin causes reddening, pain, irritation & damage. esult in ulcerating burns and dermatitis.
		irritating to the nose, mouth, throat and lungs. It may also cause
		e production of lung edema which can result in shortness of breath,
		pairment of lung function. Inhalation of high concentrations of mist
	can result in permanent lung damage	
		. Do not swallow. Avoid breathing product vapors or mist .
Conditions Aggravated by Use:		s with heart conditions or chronic respiratory problems such as
	asthma; emphysema or obstructive lu	ing disease. May aggravate preexisting skin disorders.
Emergency & First Aid Procedures:		
Eyes:		pently with water for 15-20 minutes. Remove contact lenses if on continue rinsing eye. Call a poison control center or doctor for
	further treatment advice.	in continue mising eye. Can a poison control center of doctor for
Skin		e skin immediately with plenty of water for 15-20 minutes. Call a

SECTION IX: SPECIAL PRECAUTIONS

Precautions; Handling & Storing: Store in a cool, dry, well ventilated area. Keep product temperature below 85 F and above 32 F. Store in upright vented, closed containers protected from direct sunlight. Do not store near acids, heat or oxidizable materials or organics. Empty containers retain product residue, continue to obey safety and handling

precautions. Contact with ammonia and amine-based compounds can generate toxic chloramine compounds. Contact with acids can release dangerous chlorine gas.

Other Precautions: Keep out of reach of children. Mix only with water. Do not use or mix with other cleaning products.
