Emergency Overview: May cause eye Irritation. Avoid eye contact.

Contact with Eyes: Mild irritant.

Contact with Skin: Contact with concentrate may be an irritant for sensitive skin.

Skin Absorption: No date,

ingestion Symptoms: Ingestion of any scap may cause naused and vomiting.

inhabition Symptoms: N/A

Chronic Effects: No data.

It is importent to determine whether exposure is to concentrated or dilute product. The information in this document is intended to deal with exposure to concentrated product. Generally, exposure to diluted product will result in substantially less risk of injury then described herein.

## 4 First Aid Measures

Eyes: If eyes are contected, flush with water for 15 minutes. If irritation persists seek medical attention,

Skin: Contact with concentrate may be an irritant to sensitive skin. Wesh thoroughly with water.

Inhalstion: If discomfort is experienced after prolonged exposure to mists/vapors, remove to fresh air. If breething is difficult, give oxygen and seek medical attention.

Ingestion: If ingested, do NOT induce vomiting, Give moderate amounts of water to wash out mouth area and dilute remaining residue. Seek medical attention,
