Section 1. C	hemical product and company identification
Trade name	: LIBERTY
Product use	: Floor Stripper
Supplier	: Ecolab Co.
	5105 Tomken Road
	Mississauga ON_L4W 2X5 1-800-352-5326
Code	: 903574
Date of issue	08-July-2009
	EMERGENCY HEALTH INFORMATION: 1-800-328-0026 Outside United States and Canada CALL 1-651-222-5352 (in USA)
Section 2. H	azards identification
Physical state	: Liquid. [Liquid.]
Emergency overview	: DANGER!
	CAUSES DIGESTIVE TRACT, EYE AND SKIN BURNS. CAUSES RESPIRATORY TRACT IRRITATION. MAY BE HARMFUL IF SWALLOWED.
	Do not ingest. Do not get in eyes, on skin or on clothing. Avoid breathing vapours, spray or mists. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.
Routes of entry	: Skin contact, Eye contact, Inhalation, Ingestion
Potential acute heal	th effects
Eyes	: Corrosive to eyes.
Skin	: Corrosive to the skin.
Inhalation	: Severely irritating to the respiratory system.
Ingestion	: Causes burns to mouth, throat and stomach. May be harmful if swallowed.
See toxicological in	formation (section 11)

## Section 4. First-aid measures

Eye contact	<ul> <li>In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.</li> </ul>
Skin contact	: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Inhalation	<ul> <li>If inhaled, remove to fresh air. If exposed person is not breathing, give artificial respiration or oxygen applied by trained personnel. Get medical attention immediately.</li> </ul>
Ingestion	: If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

## Section 5. Fire-fighting measures

Auto-ignition temperature	:	Not available.
Flash point	:	> 100°C
-		Product does not support combustion.
Flammable limits	:	Not available.
Hazardous thermal	:	Decomposition products may include the following materials:
decomposition products		carbon dioxide
		carbon monoxide
		nitrogen oxides
		sulfur oxides
		metal oxide/oxides
Fire-fighting media and instructions	:	Use an extinguishing agent suitable for the surrounding fire.
		Dyke area of fire to prevent runoff.
		In a fire or if heated, a pressure increase will occur and the container may burst.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
		· · · · · · · · · · · · · · · · · · ·

Risk of explosion of the product in the presence of mechanical impact: Not available.

Risk of explosion of the product in the presence of static discharge: Not available.

### Section 6. Accidental release measures

Personal precautions	: Immediately contact emergency personnel. Stop leak if without risk. Use suitable protective equipment. Keep unnecessary personnel away. Do not touch or walk through spilt material.
Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods for cleaning up	: If emergency personnel are unavailable, contain spilt material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dyke spilt material or otherwise contain it to ensure runoff does not reach a waterway. Place spilt material in an appropriate container for disposal.

## Section 7. Handling and storage

Handling	: Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe vapour or spray.
	Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.
Storage	: Keep out of reach of children. Keep container in a cool, well-ventilated area. Keep container tightly closed.
	Store between the following temperatures: 0 and 50°C

## Section 8. Exposure controls/personal protection

Engineering meas	<ul> <li>Sures : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.</li> </ul>
Personal protecti	<u>on :</u>
Eyes	: Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.
Hands	: Use chemical-resistant, impervious gloves.
Skin	: Use synthetic apron, other protective equipment as necessary to prevent skin contact.
Respiratory	: Wear appropriate respirator when ventilation is inadequate and occupational exposure limits are exceeded.

## Section 10. Stability and reactivity

Stability	The product is stable. Under normal conditions of storage and use, hazardous polymerisation will not occur.	
Conditions of instability	Not available.	
Reactivity	Reactive or incompatible with the following materials: acids.	
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition product should not be produced.	S
Hazardous polymerisation	Under normal conditions of storage and use, hazardous polymerisation will not occur.

## Section 13. Disposal considerations

**Waste disposal** : The generation of waste should be avoided or minimised wherever possible. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

#### Section 14. Transport information

Certain shipping modes or package sizes may have exceptions from the transport regulations. The classification provided may not reflect those exceptions and may not apply to all shipping modes or package sizes.

**UN Classification** 

UN number	UN2491	
Proper shipping name	ETHANOLAMINE SOLUTION	
Class	8	
Packing group	III	

See shipping documents for specific transportation information.

#### Section 15. Regulatory information

WHMIS

Class D-2B: Material causing other toxic effects (Toxic).

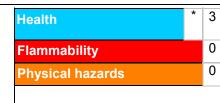

Class E: Corrosive material

Canada inventory : All components are listed or exempted.

This product has been classified in accordance with the hazard criteria of the *Controlled Products Regulations* and the MSDS contains all the information required by the *Controlled Products Regulations*.
