Material Safety Data Sheet

Not classified as hazardous according to criteria of Worksafe Australia

COMPANY DETAILS

Company: Concept Amenities Pty Ltd
Address: 81 – 85 Malcolm Rd, Braeside VIC. 3195
Telephone: (03) 9580 9977
Emergency Telephone No:

IDENTIFICATION

IDENTIFICATION

Product Name: Ecoessential Facial Bar
Other Names: Facial Soap Bar
Manufacturer's Code: C...
UN Number: None assigned
Dangerous Goods Class: None assigned
Subsidiary Risk: None assigned
Hazchem Code: None assigned
Poisons Schedule: Not scheduled
Packaging Group: None assigned

USE

For body and hair cleansing. Wet surface of the soap and the surface to be cleaned. Rub the area with the soap. Rise foam off.

PHYSICAL DESCRIPTION & PROPERTIES

Appearance: Yellow solid blocks of various sizes and shapes.
Melting Point: Not established
Boiling Point: Not established
Vapour Pressure: Not available
Specific Gravity: ca. 1.1
pH = ca. 9.5
Flashpoint: Not applicable
Flammability Limits: Not applicable
Solubility in water: Completely soluble

OTHER PROPERTIES

No relevant data

DATE OF ISSUE: July 2004

REPLACES: None

<u>INGREDIENTS</u>	CHEMICAL ENTITY	CAS No	PROPORTION
	Sodium salts of palm oil fatty acids	Not available	> 60%
	Sodium salts of palm kernel oil fatty acids	Not available	10 - < 30%
	Water	7732-18-5	10 - 30%
	Other ingredients determined not to be hazardous	Not applicable	< 10%

HEALTH HAZARD INFORMATION

HEALTH EFFECTS

Acute: **Swallowed:** No data available. Considered an unlikely route of exposure in commercial environments. May cause a burning sensation and irritation to the upper digestive tract.

Eye: Direct contact with eyes may result in some stinging, redness and mild irritation.

Skin: No adverse skin reaction is expected. No adverse reports have been received after number of years of use by many people.

Inhaled: Not considered a normal route of exposure. No adverse health effects are expected under normal use and storage condition. However if the soap is allowed to dry out, soap dust may be formed during handling. This dust may cause irritation to the upper respiratory tract.

Chronic: No information available.

FIRST AID

Swallowed: If swallowed, rinse mouth thoroughly with water. Give plenty of water. Seek medical advice.

Eyes: If in eye, irrigate immediately with copious amounts of water for 15 minutes with eyelids held open. Seek medical advice if ill effects persist.

Skin: Wash affected areas with copious quantities water immediately. Remove contaminated clothing and wash before reuse.

Inhaled: Remove victim to fresh air.

First Aid Facilities: Have eyewashes and general wash facilities available where contact can occur.

ADVICE TO DOCTOR

Treat symptomatically.

PRECAUTIONS FOR USE

Exposure Standard: [NOHSC:1003(1995)]
Nuisance dust

TWA
10 mg/m³

Engineering Controls: If not working in open air use good general ventilation that will ensure the lowest practicable dust level.

PERSONAL PROTECTION

Avoid repeated and prolonged skin contact. Wear safety overalls, glasses and impervious gloves. Always wash hands before smoking, eating, drinking or using the toilet.

FLAMMABILITY

This product is not flammable but will burn when dried out. Ensure good ventilation. Practice sound industrial hygiene.

DATE OF ISSUE: July 2004

REPLACES: None

SAFE HANDLING INFORMATION**STORAGE AND
TRANSPORT**

Keep containers securely sealed and protected against physical damage.
Store between 50°C and 5°C. Not considered Dangerous Goods as defined by the Australian Code for the Transport of Dangerous Goods by Road and Rail. No special transport precautions are required.

Incompatibilities: Keep away from food and drink. Also keep away from acids and oxidising agents.

**SPILLS AND
DISPOSAL**

The spill area may become slippery. Exercise due caution. Ensure adequate ventilation. Wearing suitable personal protective equipment, collect the cakes of soap and place them in suitable, waterproof containers. Prevent product loss into drains or waterways. Seal all drums and clearly label them. Dispose drums strictly in accordance with local industrial waste disposal or environmental protection regulations. The services of a professional hazardous waste disposal organisation is highly recommended.

**FIRE/EXPLOSION
HAZARD**

Non flammable solid. In the dry state, the soap will burn and may emit oxides of carbon and other noxious fumes. Fire fighters to wear self contained breathing apparatus if there is a risk of exposure to vapours. Remnants might be highly caustic, particularly in the presence of water.

Extinguishing Media: Water fog, fine water spray, foam, carbon dioxide or dry chemical.
