SPILLS AND DISPOSAL

The spill area will be extremely slippery. Small spills can be wiped up with a rag or absorbent paper. Wearing suitable personal protective equipment, contain large spills with earth, sand or sawdust. Prevent run-off into drains or waterways. Bail or pump any free liquid into sealable plastics containers. Collect absorbed material and place it also into sealable plastics containers. Seal all drums and clearly label them. Dispose drums strictly in accordance with local industrial waste disposal or environmental protection regulations. The services of a professional hazardous waste disposal organization is highly recommended.

FIRE/EXPLOSION HAZARD

Non flammable liquid. In the dry state, burning may emit oxides of carbon and other noxious fumes. Fire fighters to wear self contained breathing apparatus if there is a risk of exposure to vapours.

Extinguishing Media: Water fog, fine water spray, foam, carbon dioxide or dry chemical.
