

# Spartan Chemical Company, Inc. Material Safety Data Sheet

SECTION I: PRODUCT INFORMATION

Product Name or Number (as it appears on label): CLOTHESLINE FRESH ANTI-CHLOR [14]

Product Number: 7014

Product Division: Janitorial

Spartan Chemical Company, Inc.

1110 Spartan Drive Maumee OH 43537 Product/Technical Information: 1-(800)-537-8990

Medical Emergency: 1-(888)-314-6171 (24 hours)

Chemical Leak/Spil Emergency: CHEMTREC 1-(800) 424-9300 (24 hours)

Shipping Description: Non-Hazardous Products

NFPA Ratings:	HMIS Ratings:
Health: 1- Slight	Health: *1 - Slight; Chronic Hazard
Fire: 0 - Minimal	Fire: 0 - Minimal
Reactivity: 0 - Minimal	Reactivity: 0 - Minimal
	Pers. Prot. Equip.: See Section VIII

## SECTION II: HAZARDOUS INGREDIENTS

(Listed when present at 1% or greater, carcinogens at 0.1% or greater) All component chemicals are listed or exempted from listing

on the "TSCA Inventory" of chemical substances maintained by the U.S. Environmental Protection Agency.

			Table Z-1-A			
Chemical Name(s)	%Wt	CAS Registry No.	TWA mg/m³	STEL mg/m³	CEILING mg/m³	NTP, IARC or OSHA Carcinogen
Sodium thiosulfate pentahydrate	15-20	10102-17-7	Not Established	Not Established	Not Established	No
Sodium sulfite	1-5	7757-83-7	Not Established	Not Established	Not Established	No

#### SECTION III: PHYSICAL DATA

Boiling Point: 212 °F	Vapor Pressure: Unknown
Vapor Density (AIR = 1): Unknown	Solubility in Water: Complete
pH: 9.0-10.0	Specific Gravity (H <sub>2</sub> O=1): 1.126
Evaporation Rate (but.ace.=1): <1	Percent Solid by Weight: 20-25
Physical State: Liquid	
Appearance & Odor: Clear liquid, mild odor.	

### SECTION IV: FIRE & EXPLOSIVE HAZARD DATA

Flash Point: > 212°F	Method Used: ASTM-D56		
Flammable Limits: N/A	Flame Extension: N/A		
Extinguishing Media: Product does not support combustion.	Use extinguishing media appropriate for surrounding fire.		
Special Fire Fighting Procedures: Wear NIOSH approved self-contained breathing apparatus and protective clothing. Cool fire-exposed containers with water spray.			
Unusual Fire & Explosive Hazards: Burning may yield toxic sulfur dioxide	gas. Combustion products are toxic.		

Eyes: Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical at Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical at irritation persists. Wash contaminated clothing before reuse  Ingestion: Do not induce vomiting. Drink one or two glasses of water to dilute product. Get medical attemporary irritation or dizziness; move person.  In case of respiratory irritation or dizziness; move person to fresh air. Get medical attemporary persists.  ECTION VI: REACTIVITY DATA  Stability: Stable  Incompatible Materials: Strong oxidizer to form toxic & gas and/or hyd  Hazardous Decomposition Products: Thermal decomposition may produce oxides of sulfur, carbon and nitrogen as well as other toxic decomposition products.  Hazardous Polymerization: Will Not Occur	s. Sulfite sensitive this product.  w. Wash thorough uding asthma and attention.					
May be harmful if swallowed: Symptoms may include nausea, vomiting, pain and dia Contains sodium sulfite which can cause allergic skin and respiratory reaction individuals and people with asthma may experience severe reactions from exposure to Avoid contact with eyes, skin or clothing that is being worn. Do not taste or swallo after handling.  Conditions Aggravated by Use: Use of this product may aggravate preexisting skin; eye and respiratory disorders includermatitis.  Emergency & First Aid Procedures:  Eyes: Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical at skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical at irritation persists. Wash contaminated clothing before reuse  Ingestion: Do not induce vomiting. Drink one or two glasses of water to dilute product. Get medical atteriation in case of respiratory irritation or dizziness; move person to fresh air. Get medical atteriation persists.  ECTION VI: REACTIVITY DATA  Stability: Stable  Incompatible Materials: Strong oxidizer to form toxic & gas and/or hyd  Hazardous Decomposition Products: Thermal decomposition may produce oxides of sulfur, carbon and nitrogen as well as other toxic decomposition  Because of Spilled: Small spills of one gallon or less may be flushed with plenty of water to sanitary sewer permitted by local sewer regulations). Dike and contain large spills with inert material.	s. Sulfite sensition this product.  w. Wash thorough uding asthma and attention.					
Contains sodium sulfite which can cause allergic skin and respiratory reaction individuals and people with asthma may experience severe reactions from exposure to Avoid contact with eyes, skin or clothing that is being wom. Do not taste or swallo after handling.  Conditions Aggravated by Use:  Use of this product may aggravate preexisting skin; eye and respiratory disorders incidermatitis.  Emergency & First Aid Procedures:  Eyes:  Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical at irritation persists. Wash contaminated clothing before reuse  Ingestion:  Do not induce vomiting. Drink one or two glasses of water to dilute product. Get medical attemption persists.  In case of respiratory irritation or dizziness; move person to fresh air. Get medical attemption persists.  ECTION VI: REACTIVITY DATA  Stability:  Stable  Incompatible Materials: Strong oxidizer to form toxic & gas and/or hyd  Hazardous Decomposition Products:  Thermal decomposition may produce oxides of sulfur, carbon and nitrogen as well as other toxic decomposition products.  ECTION VII: SPILL OR LEAK PROCEDURES  Steps to be Taken in Case  Material is Released or Spilled:  Small spills of one gallon or less may be flushed with plenty of water to sanitary sewer permitted by local sewer regulations). Dike and contain large spills with inert material.	s. Sulfite sensition this product.  w. Wash thorough uding asthma and attention.					
individuals and people with asthma may experience severe reactions from exposure to Avoid contact with eyes, skin or clothing that is being worn. Do not taste or swallo after handling.  Conditions Aggravated by Use: Use of this product may aggravate preexisting skin; eye and respiratory disorders includermatitis.  Eyes: Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical at Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical at irritation persists. Wash contaminated clothing before reuse  Ingestion: Do not induce vomiting. Drink one or two glasses of water to dilute product. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance in a case of respiratory irritation or dizziness; move person to fresh air. Get medical attendance irritation irritatio	o this product.  w. Wash thorough  uding asthma and  attention.  dical attention if					
Avoid contact with eyes, skin or clothing that is being worn. Do not taste or swallo after handling.  Conditions Aggravated by Use: Use of this product may aggravate preexisting skin; eye and respiratory disorders incle dermatitis.  Emergency & First Aid Procedures:  Eyes: Eyes: Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical a Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical increases in the product of the product. Get medical attents of the product o	w. Wash thorough uding asthma and attention. dical attention if					
after handling.  Conditions Aggravated by Use: Use of this product may aggravate preexisting skin; eye and respiratory disorders includermatitis.  Emergency & First Aid Procedures:  Eyes: Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical at Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical at irritation persists. Wash contaminated clothing before reuse  Ingestion: Do not induce vomiting. Drink one or two glasses of water to dilute product. Get medical attemprises of respiratory irritation or dizziness; move person to fresh air. Get medical attemprises.  ECTION VI: REACTIVITY DATA  Stability: Stable  Incompatible Materials: Strong oxidizer to form toxic & gas and/or hyd  Hazardous Decomposition Products: Thermal decomposition may produce oxides of sulfur, carbon and nitrogen as well as other toxic decomposition products.  ECTION VII: SPILL OR LEAK PROCEDURES  Steps to be Taken in Case Material is Released or Spilled: Small spills of one gallon or less may be flushed with plenty of water to sanitary sewer permitted by local sewer regulations). Dike and contain large spills with inert material.	uding asthma and attention.					
Conditions Aggravated by Use: Use of this product may aggravate preexisting skin; eye and respiratory disorders incidermatitis.  Emergency & First Aid Procedures:  Eyes: Flush eyes with water for at least 15 minutes. Remove contact lenses. Get medical a Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attriction persists. Wash contaminated clothing before reuse  Ingestion: Do not induce vomiting. Drink one or two glasses of water to dilute product. Get medical attriction products. In case of respiratory irritation or dizziness; move person to fresh air. Get medical attriction persists.  ECTION VI: REACTIVITY DATA  Stability: Stable  Incompatible Materials: Strong oxidizer to form toxic & gas and/or hyd  Hazardous Decomposition Products: Thermal decomposition may produce oxides of sulfur, carbon and nitrogen as well as other toxic decomposition products.  Hazardous Polymerization: Will Not Occur  Hazardous Polymerization: Will Not Occur  Hazardous Polymerization: Strong oxidizer to form toxic & gas and/or hyd  Hazardous Polymerization: Will Not Occur  Steps to be Taken in Case Material is Released or Spilled: Small spills of one gallon or less may be flushed with plenty of water to sanitary sewe permitted by local sewer regulations).
