| Section 3. Hazards Ide   | entification                       |  |   |   |   |
| Routes of Entry  | Inhalation. Skin cor               | tact. Eye contact.                                     |   |   |   |
| Potential Acute Health Effects   |                                    | -  |   |   |   |

Eyes Corrosive. May cause permanent damage including blindness.

Skin Corrosive. May cause permanent damage.

Inhalation May cause irritation and corrosive effects to nose, throat and respiratory tract.

Ingestion Corrosive. May cause burns to mouth, throat, and stomach.

**Medical Conditions** Individuals with chronic respiratory disorders such as asthma, chronic bronchitis, emphysema, etc., may Aggravated by Overexposure: be more susceptible to irritating effects.

See Toxicological Information (section 11)

#### Johnson wax PROFESSIONAL STEP-OFF

### Section 4. First Aid Measures

| Eye Contact  | Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Get medical attention immediately.                          |
|--------------|--|
| Skin Contact | Flush immediately with plenty of water for at least 15 minutes. Get medical attention immediately.   |
| Inhalation   | If breathing is difficult: Remove to fresh air. Get medical attention immediately.   |
| Ingestion    | Do not induce vomiting! Immediately drink plenty of water. Never give anything by mouth to an unconscious person. Get medical attention immediately. |

#### Section 5. Fire Fighting Measures

| Flammability of the Product<br>Flash Points      | None known.<br>Not available.   |
|--|---|
| <b>Products of Combustion</b>                    | None known.   |
| Fire Fighting Media<br>and Instructions          | Extinguish with water spray or carbon dioxide, dry chemical powder or appropriate foam. Normal fire fighting procedure may be used. |
| <b>Protective Clothing (Fire)</b>                | Put on appropriate personal protective equipment (see Section 8.).  |
| Special Remarks on Fire and<br>Explosion Hazards | Corrosive material (See sections 8 and 10).   |

#### Section 6. Accidental Release Measures

| <b>Personal Precautions</b>                       | Put on appropriate personal protective equipment (see Section 8.).   |  |
|---|--|--|
| Environmental Precautions<br>and Clean-up Methods | In the event of major spillage: Use appropriate containment to avoid environmental contamination. Sweep or scrape up material. Place in suitable clean, dry containers for disposal by approved methods. Use a water rinse for final clean-up. |  |

### Section 7. Handling and Storage

| Handling | Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Avoid breathing vapors or spray<br>mists. Wash thoroughly after handling. Remove and wash contaminated clothing and footwear before<br>re-use. Product residue may remain on/in empty containers. All precautions for handling the product must<br>be used in handling the empty container and residue. FOR INDUSTRIAL USE ONLY. |
|----------|--|
| Storage  | Store in a dry, cool and well-ventilated area. Protect from freezing. Keep container tightly closed. KEEP OUT OF REACH OF CHILDREN.  |

### Section 8. Exposure Controls/Personal Protection

| Engineering Controls | Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.  |
|----------------------|--|
| Personal Protection  |  |
| Eyes                 | Chemical splash goggles.   |
| Hands                | Chemical resistant gloves. Includes: Neoprene gloves.  |
|                      | If mists/vapors are not adequately controlled by ventilation, use appropriate respiratory protection to avoid over exposure. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. |
| Feet                 | Protective footwear.   |
| Body                 | If major exposure is possible, wear suitable protective clothing and footwear.   |

#### Section 9. Physical and Chemical Properties

| Liquid.       |
|---------------|
| Mild.         |
| Straw color.  |
| 12.5 [Basic.] |
| 1.06          |
| 100°C (212°F) |
| 2.66 ±        |
|               |

STEP-OFF

Solubility in water

Complete.

| Section 10. Stability and Reactivity       |   |  |
|--|---|--|
| Stability and Reactivity                   | The product is stable.                  |  |
| <b>Conditions of Instability</b>           | None known.                             |  |
| Incompatibility with Various<br>Substances | Reactive with oxidizing agents, acids.  |  |
| Hazardous Decomposition<br>Products        | Produces normal products of combustion. |  |
| Hazardous Polymerization                   | Will not occur.                         |  |

# Section 11. Toxicological Information

| Acute toxicity              | Corrosive.     |
|-----------------------------|----------------|
| Effects of Chronic Exposure | None known.    |
| <b>Other Toxic Effects</b>  | Not available. |

#### Section 12. Ecological Information

Not available.

#### Section 13. Disposal Considerations

 Waste Information
 Undiluted product is regulated under environmental and transportation laws as a corrosive waste. Dispose of according to all federal, state and local regulations.

#### Section 14. Transport Information

#### **DOT Classification DOT Proper** Corrosive liquid, basic, inorganic, n.o.s. ( Sodium hydroxide , Monoethanolamine ) **Shipping Name DOT Class** Class 8: Corrosive material UN3266 UN/NA **Packing Group** Ш **TDG** Classification **TDG** Proper Corrosive liquid, basic, inorganic, n.o.s.
