Neutralizing Rinse Plus

DESCRIPTION

A specially formulated product with Soil Guard® 2000, used to rinse the carpet after extraction cleaning, shampooing, or bonnet buffing. This necessary step will remove any residual remaining in the carpet fibers and will further rinse on the acid side to prevent the carpet from oxidizing (turning brown), leaving a pleasant scent. Excellent for coffee, tea, and light rust stains. Safe on all carpet fibers including wool. Does not contain any optical brighteners.

The new Soil Guard® 2000 cleaning technology incorporates DuPont Zonyl® Soil and Stain Protector to deliver a product that neutralizes harsh alkali residues from previous cleanings, removes detergent residues from the fibers and gives the dry carpet a fresh clean feel.

DIRECTIONS

First Method: Most carpet manufacturers cleaning recommendations state that the carpet should be sprayed using a prespray, Traffic and Bonnet Cleaner, or an extraction product on the carpet, allowing the chemical to dwell for 3-5 minutes to emulsify the greasy soil and dirt. Then follow up by diluting Rinse & Neutralizer in the extraction machine 2-3 oz. per gallon of water. Proceed to rinse.

Second Method: Dilute Rinse & Neutralizer in a sprayer at a 2-3 oz. per gallon ratio and lightly mist over the previously cleaned carpet, allowing to dry simultaneously.

Third Method: To remove chemical build-up on extremely soiled carpets, dilute Rinse & Neutralizer in an extraction machine, 2-3 oz. per gallon of water, and rinse the carpet before extraction, shampooing or bonnet buffing. Always test an inconspicuous area to determine colorfastness.

FEATURE BENEFIT: By using the Rinse & Neutralizer through the extraction machine, it prevents the jets from clogging which could cause streaking during extraction.

PRODUCT SPECIFICATIONS

Active Ingredients:	10.0 ± 0.5%	Phosphate Content:	None
Color:	Water Clear	Solubility:	Complete with water
Odor:	Spring mist	Soil Retardency:	Excellent
pH:	1.5 - 2.0	Biodegradability:	Complete
Viscosity:	Water thin	Storage/Stability:	2 years
Foam:	Low	Weight per Gallon:	8.80 lbs./gal.
Petroleum Distillates:	None	Freeze / Thaw Stability:	Keep from freezing
Inorganic Acids:	None
