

# Ultra Prep

## Safety Data Sheet

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product form : Mixture  
Product name : **Ultra Prep**  
Product code : 255

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Carpet Cleaner

#### 1.3. Details of the supplier of the safety data sheet

MSM, Inc.  
1101 E. Francisco Blvd.  
San Rafael, CA 94901 - USA  
T 415-258-0550 - F 415-258-0564

#### 1.4. Emergency telephone number

Emergency number : 415-258-0550

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification (GHS-US)

Skin Irrit. 2 H315  
Eye Irrit. 2A H319

Full text of H-phrases: see section 16

#### 2.2. Label elements

##### GHS-US labeling

Hazard pictograms :

GHS07

Signal word : Warning

Hazard statements : Causes skin irritation.  
Causes serious eye irritation.

Precautionary statements : Wash hands and forearms thoroughly after handling.  
Wear eye protection, protective gloves.  
If on skin: Wash with plenty of water.  
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If skin irritation occurs: Get medical advice/attention.  
If eye irritation persists: Get medical advice/attention.  
Take off contaminated clothing and wash before reuse.

#### 2.3. Hazard not otherwise classified (HNOC)

No additional information available

#### 2.4. Unknown acute toxicity (GHS-US)

No data available

### SECTION 3: Composition/information on ingredients

#### 3.1. Substance

Not applicable

(NOTE: If component displays the \* (asterisk) symbol, the following statement applies.)

\*Chemical name, CAS number and/or exact concentration have been withheld as a trade secret

Full text of H-phrases: see section 16

#### 3.2. Mixture

# Ultra Prep

## Safety Data Sheet

| Name                                    | Product identifier  | %     | Classification (GHS-US)                                    |
|-----------------------------------------|---------------------|-------|------------------------------------------------------------|
| sodium xylenesulfonate                  | (CAS No) 1300-72-7  | 1 - 5 | Skin Irrit. 2, H315<br>STOT SE 3, H335                     |
| trisodium orthophosphate, dodecahydrate | (CAS No) 10101-89-0 | 1 - 5 | Skin Irrit. 2, H315<br>Eye Dam. 1, H318<br>STOT SE 3, H335 |

(NOTE: If component displays the \* (asterisk) symbol, the following statement applies.)

\*Chemical name, CAS number and/or exact concentration have been withheld as a trade secret

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

|                                       |                                                                                                                                                                                              |
|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general            | : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).                                                            |
| First-aid measures after inhalation   | : If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, seek medical advice.                                   |
| First-aid measures after skin contact | : If skin irritation or rash occurs: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation persists, get medical attention.                        |
| First-aid measures after eye contact  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| First-aid measures after ingestion    | : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.                                                                                                                   |

#### 4.2. Most important symptoms and effects, both acute and delayed

|                                      |                                                                                                                                     |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Symptoms/injuries                    | : Not expected to present a significant hazard under anticipated conditions of normal use. If you feel unwell, seek medical advice. |
| Symptoms/injuries after skin contact | : Causes skin irritation.                                                                                                           |
| Symptoms/injuries after eye contact  | : Causes serious eye irritation.                                                                                                    |
| Symptoms/injuries after ingestion    | : FOLLOWING SYMPTOMS MAY APPEAR LATER: Gastrointestinal complaints. Irritation of the gastric/intestinal mucosa. Nausea.            |

#### 4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

|                                |                                                                                            |
|--------------------------------|--------------------------------------------------------------------------------------------|
| Suitable extinguishing media   | : Extinguishing media for surrounding fires. Adapt extinguishing media to the environment. |
| Unsuitable extinguishing media | : No unsuitable extinguishing media known.                                                 |

#### 5.2. Special hazards arising from the substance or mixture

|            |                                                         |
|------------|---------------------------------------------------------|
| Reactivity | : Reacts with (strong) oxidizers and with (some) acids. |
|------------|---------------------------------------------------------|

#### 5.3. Advice for firefighters

|                                |                                                                                                                                                                   |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Firefighting instructions      | : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. |
| Protection during firefighting | : Do not enter fire area without proper protective equipment, including respiratory protection.                                                                   |
| Other information              | : No additional information available.                                                                                                                            |

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

|                  |                                                             |
|------------------|-------------------------------------------------------------|
| General measures | : Isolate from fire, if possible, without unnecessary risk. |
|------------------|-------------------------------------------------------------|

##### 6.1.1. For non-emergency personnel

|                      |                                             |
|----------------------|---------------------------------------------|
| Protective equipment | : Protective goggles.<br>Protective gloves. |
| Emergency procedures | : Evacuate unnecessary personnel.           |

##### 6.1.2. For emergency responders

|                      |                                              |
|----------------------|----------------------------------------------|
| Protective equipment | : Equip cleanup crew with proper protection. |
| Emergency procedures | : Ventilate area.                            |

#### 6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

#### 6.3. Methods and material for containment and cleaning up

|                         |                                                                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For containment         | : Contain released substance, pump into suitable containers. Plug the leak, cut off the supply.                                                                                          |
| Methods for cleaning up | : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. Wash down leftovers with plenty of water. |

# Ultra Prep

## Safety Data Sheet

### 6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

|                               |                                                                                                                                                                                                                                                                         |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for safe handling | : Do not get in eyes, on skin, or on clothing. Do not breathe mist, vapors. Ensure good ventilation of the work station. Observe normal hygiene standards. Use personal protective equipment as required.                                                               |
| Hygiene measures              | : Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. Wash hands and forearms thoroughly after handling. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. |

### 7.2. Conditions for safe storage, including any incompatibilities

|                       |                                                                                             |
|-----------------------|---------------------------------------------------------------------------------------------|
| Technical measures    | : Comply with applicable regulations.                                                       |
| Incompatible products | : Strong acids. Oxidizing agent.                                                            |
| Storage area          | : Store in a cool, dry well-ventilated area. Keep container tightly closed when not in use. |

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

No data available

### 8.2. Exposure controls

|                                  |                                                                                                                              |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| Personal protective equipment    | : Avoid all unnecessary exposure.                                                                                            |
| Hand protection                  | : Wear protective gloves.                                                                                                    |
| Eye protection                   | : Chemical goggles or safety glasses.                                                                                        |
| Skin and body protection         | : Wear suitable protective clothing.                                                                                         |
| Respiratory protection           | : In case of insufficient ventilation, wear suitable respiratory equipment.                                                  |
| Other information                | : When using, do not eat, drink or smoke.                                                                                    |
| Appropriate engineering controls | : Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. |

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                             |                     |
|---------------------------------------------|---------------------|
| Physical state                              | : Liquid            |
| Color                                       | : Clear             |
| Odor                                        | : Lemon             |
| Odor threshold                              | : No data available |
| pH                                          | : 12 - 13           |
| Melting point                               | : No data available |
| Freezing point                              | : No data available |
| Boiling point                               | : No data available |
| Flash point                                 | : > 200 °F          |
| Relative evaporation rate (butyl acetate=1) | : No data available |
| Flammability (solid, gas)                   | : No data available |
| Explosive limits                            | : No data available |
| Vapor pressure                              | : No data available |
| Vapor density                               | : No data available |
| Specific Gravity @ 77° F                    | : 1.042 - 1.062     |
| Solubility                                  | : Soluble in water. |
| Partition Coefficient n-Octanol-Water       | : No data available |
| Auto-ignition temperature                   | : No data available |
| Decomposition temperature                   | : No data available |
| Viscosity                                   | : No data available |

# Ultra Prep

## Safety Data Sheet

### 9.2. Other information

VOC content : < 2 g/l CARB VOC

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Reacts with (strong) oxidizers and with (some) acids.

### 10.2. Chemical stability

Stable under recommended conditions.

### 10.3. Possibility of hazardous reactions

Not established.

### 10.4. Conditions to avoid

Extremely high or low temperatures.

### 10.5. Incompatible materials

Strong acids. Oxidizers.

### 10.6. Hazardous decomposition products

Carbon dioxide. Carbon monoxide. Sulfur oxides.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

Acute toxicity : Not classified

| trisodium orthophosphate, dodecahydrate (10101-89-0) |                                                                                                                           |
|------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| LD50 oral rat                                        | 7400 mg/kg (Rat; OECD 420: Acute Oral toxicity – Acute Toxic Class Method; Literature study; >2000 mg/kg bodyweight; Rat) |
| LD50 dermal rabbit                                   | > 7940 mg/kg (Rabbit)                                                                                                     |
| LC50 inhalation rat (mg/l)                           | > 0.83 mg/l/4h (Rat; Read-across)                                                                                         |
| ATE US (oral)                                        | 7400.000 mg/kg body weight                                                                                                |
| sodium xylenesulfonate (1300-72-7)                   |                                                                                                                           |

## SECTION 12: Ecological information

### 12.1. Toxicity

# Ultra Prep

## Safety Data Sheet

### trisodium orthophosphate, dodecahydrate (10101-89-0)

|                         |                                                      |
|-------------------------|------------------------------------------------------|
| LC50 fish 1             | 2400 mg/l (48 h; Leuciscus idus; Anhydrous form)     |
| EC50 Daphnia 1          | > 100 mg/l (48 h; Daphnia magna)                     |
| LC50 fish 2             | 220 mg/l (96 h; Lepomis macrochirus; Anhydrous form) |
| Threshold limit algae 1 | > 100 mg/l (72 h; Desmodesmus subspicatus)           |

### sodium xylenesulfonate (1300-72-7)

|                    |                             |
|--------------------|-----------------------------|
| LC50 fish 1        | > 1580 mg/l (Rainbow trout) |
| EC50 Daphnia 1     | > 1020 mg/l                 |
| ErC50 (algae)      | 758 mg/l                    |
| NOEC chronic algae | 240 mg/l                    |

## 12.2. Persistence and degradability

### trisodium orthophosphate, dodecahydrate (10101-89-0)

|                               |                                                                                                                                    |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Persistence and degradability | Biodegradability: not applicable. Biodegradability in soil: not applicable. No (test) data on mobility of the substance available. |
| ThOD                          | Not applicable (inorganic)                                                                                                         |

### sodium xylenesulfonate (1300-72-7)

|                               |                                               |
|-------------------------------|-----------------------------------------------|
| Persistence and degradability | Biodegradability in water: no data available. |
|-------------------------------|-----------------------------------------------|

## 12.3. Bioaccumulative potential

### trisodium orthophosphate, dodecahydrate (10101-89-0)

|                           |                      |
|---------------------------|----------------------|
| Bioaccumulative potential | Not bioaccumulative. |
|---------------------------|----------------------|

### sodium xylenesulfonate (1300-72-7)

|                           |                                    |
|---------------------------|------------------------------------|
| Bioaccumulative potential | No bioaccumulation data available. |
|---------------------------|------------------------------------|

## 12.4. Other adverse effects

Other information : Avoid release to the environment.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Waste disposal recommendations : Dispose of contents/container in accordance with Local, State, and Federal regulations.  
Ecology - waste materials : Avoid release to the environment.

## SECTION 14: Transport information

### 14.1. UN Number

UN-No.(DOT) : Not Regulated  
Other information : No supplementary information available

### 14.2. UN proper shipping name

DOT Proper Shipping Name : Not Regulated

## SECTION 15: Regulatory information

### 15.1. US Federal regulations

This product or mixture does not contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

### trisodium orthophosphate, dodecahydrate (10101-89-0)

|                                                                                           |                                 |
|-------------------------------------------------------------------------------------------|---------------------------------|
| RQ (Reportable quantity, section 101(14) of CERCLA as published on EPA's List of Lists) : | 5000 lb                         |
| SARA Section 311/312 Hazard Classes                                                       | Immediate (acute) health hazard |

### sodium xylenesulfonate (1300-72-7)

|                                                                           |                                 |
|---------------------------------------------------------------------------|---------------------------------|
| Listed on the United States TSCA (Toxic Substances Control Act) inventory |                                 |
| SARA Section 311/312 Hazard Classes                                       | Immediate (acute) health hazard |

# Ultra Prep

## Safety Data Sheet

### 15.2. International regulations

#### CANADA

#### EU-Regulations

No additional information available

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Classification according to Directive 67/548/EEC or 1999/45/EC

Not classified

#### 15.2.2. National regulations

##### trisodium orthophosphate, dodecahydrate (10101-89-0)

Trisodium orthophosphate dodecahydrate appears on the U.S. EPA TSCA Inventory under the cas# representing the anhydrous form of this material (7601-54-9 trisodium phosphate, crystalline).

### 15.3. US State regulations

California Proposition 65 - This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity

Prop 65 Comments

:Formaldehyde (CAS#50-00-0): < 10 ppm

## SECTION 16: Other information

Abbreviations Legend:

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Eye Dam. 1    | Serious eye damage/eye irritation Category 1                |
| Eye Irrit. 2A | Serious eye damage/eye irritation Category 2A               |
| Skin Irrit. 2 | Skin corrosion/irritation Category 2                        |
| STOT SE 3     | Specific target organ toxicity (single exposure) Category 3 |
| H315          | Causes skin irritation                                      |
| H318          | Causes serious eye damage                                   |
| H319          | Causes serious eye irritation                               |
| H335          | May cause respiratory irritation                            |
