

# **Material Safety Data Sheet**

Best Scrub (Diluted 1: 64)

# 1. Product and company identification

|                      | -  |
|----------------------|--|
| Product name         | : Best Scrub (Diluted 1: 64)   |
| Supplier             | : Betco Corporation<br>1001 Brown Avenue<br>Toledo, Ohio 43607<br>(800) 333-2156 |
| Manufacturer         | : Betco Corporation<br>1001 Brown Avenue<br>Toledo, Ohio 43607                   |
| Code                 | : 671 DIL  |
| MSDS #               | : 671 DIL  |
| Validation date      | : 1/30/2013.   |
| Print date           | : 1/30/2013.   |
| In case of emergency | : Chemtrec (800) 424-9300  |
| Product type         | : Liquid.  |
|                      |  |

# 2. Hazards identification

| Emergency overview                                    |   |
|---|---|
| Physical state  | : Liquid.   |
| Color   | : Clear. Green. [Light]   |
| Odor  | : Lemon-like. [Slight]  |
| Hazard statements                                     | : NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN<br>THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.   |
| OSHA/HCS status                                       | : While this material is not considered hazardous by the OSHA Hazard Communication<br>Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the<br>safe handling and proper use of the product. This MSDS should be retained and<br>available for employees and other users of this product. |
| Routes of entry                                       | : Dermal contact. Eye contact.  |
| Potential acute health effect                         | <u>s</u>  |
| Inhalation  | : No known significant effects or critical hazards.   |
| Ingestion   | : No known significant effects or critical hazards.   |
| Skin  | : No known significant effects or critical hazards.   |
| Eyes  | : No known significant effects or critical hazards.   |
| Potential chronic health effe                         | <u>cts</u>  |
| Chronic effects                                       | : No known significant effects or critical hazards.   |
| Carcinogenicity                                       | : No known significant effects or critical hazards.   |
| Mutagenicity  | : No known significant effects or critical hazards.   |
| Teratogenicity  | : No known significant effects or critical hazards.   |
| Developmental effects                                 | : No known significant effects or critical hazards.   |
| Fertility effects                                     | : No known significant effects or critical hazards.   |
| Medical conditions<br>aggravated by over-<br>exposure | : None known.   |
| See toxicological informatio                          | n (Section 11)  |

1/30/2013.

### 3. Composition/information on ingredients

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

#### 4. First aid measures

| Eye contact                | Get medical attention if symptoms occur. In case of contact with eyes, rinse immediately with plenty of water.   |
|----------------------------|--|
| Skin contact               | Wash clothing before reuse. Clean shoes thoroughly before reuse. Seek medical attention if symptoms persist.   |
| Inhalation                 | Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms occur. |
| Ingestion                  | Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.   |
| Protection of first-aiders | No action shall be taken involving any personal risk or without suitable training.   |
| Notes to physician         | <ul> <li>No specific treatment. Treat symptomatically. Contact poison treatment specialist<br/>immediately if large quantities have been ingested or inhaled.</li> </ul>   |

# 5. Fire-fighting measures

| Flammability of the product                    | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
|--|---|
| Extinguishing media                            |   |
| Suitable                                       | : Use an extinguishing agent suitable for the surrounding fire.   |
| Not suitable                                   | : None known.   |
| Special exposure hazards                       | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Hazardous thermal decomposition products       | : No specific data.   |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

# 6. Accidental release measures

| Personal precautions      | : | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment (see Section 8).   |
|---------------------------|---|--|
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| Methods for cleaning up   |   |  |
| Small spill               | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill               | - | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Note: see section 1 for emergency contact information and section 13 for waste disposal. |

| 7. Handling and storage |  |  |  |  |
|-------------------------|--|--|--|--|
| Handling                | Put on appropriate personal protective equipment (see Section 8). Eating, drinking and<br>smoking should be prohibited in areas where this material is handled, stored and<br>processed. Workers should wash hands and face before eating, drinking and smoking.<br>Remove contaminated clothing and protective equipment before entering eating areas.  |  |  |  |
| Storage                 | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |  |  |  |

# 8. Exposure controls/personal protection

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures | nis product contains ingredients with exposure limits, personal<br>biological monitoring may be required to determine the effective<br>other control measures and/or the necessity to use respiratory  | eness of the ventilation                  |
|-----------------------------------|--|---|
| Engineering measures              | special ventilation requirements. Good general ventilation sh<br>ntrol worker exposure to airborne contaminants. If this produce<br>h exposure limits, use process enclosures, local exhaust vent<br>gineering controls to keep worker exposure below any recommits.                                 | t contains ingredients<br>lation or other |
| Hygiene measures                  | ash hands, forearms and face thoroughly after handling chemi<br>ing, smoking and using the lavatory and at the end of the wor<br>hniques should be used to remove potentially contaminated c<br>ntaminated clothing before reusing. Ensure that eyewash stat<br>e close to the workstation location. | king period. Appropriate othing. Wash     |
| Personal protection               |  |   |
| Respiratory                       | e a properly fitted, air-purifying or air-fed respirator complying<br>ndard if a risk assessment indicates this is necessary. Respin<br>sed on known or anticipated exposure levels, the hazards of th<br>rking limits of the selected respirator.   | ator selection must be                    |
| Hands                             | emical-resistant, impervious gloves complying with an approv<br>rn at all times when handling chemical products if a risk asses<br>cessary.  |   |
| Eyes                              | fety eyewear complying with an approved standard should be sessment indicates this is necessary to avoid exposure to liquists.   |   |
| Skin                              | rsonal protective equipment for the body should be selected b<br>formed and the risks involved and should be approved by a s<br>s product.   |   |
| Environmental exposure controls   | nissions from ventilation or work process equipment should be<br>mply with the requirements of environmental protection legisla<br>ne scrubbers, filters or engineering modifications to the proces<br>cessary to reduce emissions to acceptable levels.   | tion. In some cases,                      |

# 9. Physical and chemical properties

| Physical state                   | : Liquid.  |
|----------------------------------|--|
| Flash point                      | : Closed cup: Not applicable. [Product does not sustain combustion.]       |
| Color                            | : Clear. Green. [Light]  |
| Odor                             | : Lemon-like. [Slight]   |
| рН                               | : 7 to 10  |
| Relative density                 | : 1  |
| <b>Dispersibility properties</b> | : Easily dispersible in the following materials: cold water and hot water. |

# 9. Physical and chemical properties

Solubility

: Easily soluble in the following materials: cold water and hot water.

#### 10. Stability and reactivity

| Chemical stability                 | : The product is stable.   |
|------------------------------------|--|
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |

### **11. Toxicological information**

| Acute toxicity            |                  |
|---------------------------|------------------|
| <b>Conclusion/Summary</b> | : Not available. |
| Chronic toxicity          |                  |
| <b>Conclusion/Summary</b> | : Not available. |
| Irritation/Corrosion      |                  |
| <b>Conclusion/Summary</b> | : Not available. |
| <u>Sensitizer</u>         |                  |
| <b>Conclusion/Summary</b> | : Not available. |
| <b>Carcinogenicity</b>    |                  |
| <b>Conclusion/Summary</b> | : Not available. |
| Mutagenicity              |                  |
| <b>Conclusion/Summary</b> | : Not available. |
| <b>Teratogenicity</b>     |                  |
| Conclusion/Summary        | : Not available. |
| Reproductive toxicity     |                  |
| Conclusion/Summary        | : Not available. |
|                           |                  |

#### 12. Ecological information

| Ecotoxicity               | : | No known significant effects or critical hazards. |
|---------------------------|---|---|
| Aquatic ecotoxicity       |   |   |
| <b>Conclusion/Summary</b> | : | Not available.                                    |
| Persistence/degradability |   |   |
| <b>Conclusion/Summary</b> | : | Not available.                                    |
|                           |   |   |

#### 13. Disposal considerations

Waste disposal

: The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

# **13. Disposal considerations**

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Label requirements

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
