1 Material and Supplier Identification

Lemon Q	
Disinfectant/Cleaner/Sanitizer	
Use only for the purpose on product label. This product is not intended to be used without prior dilution if specified on product label.	
Cole Supply Co Inc 531 Getty Ct., Suite A Benicia, CA 94510 800-762-2653 (Customer Service)	
(800) 255-3924 USA (813)248-0585 International (Ch	nemtel 24 hrs)
Not Classified	Pictogram
	No Pictogram
WARNING	
May cause skin and eye irritation.	
Keep out of Reach of Children. Read label before use.	
Wash hands thoroughly after handling.	
IF ON SKIN: Take off contaminated clothing and wash before irritation persists: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes.F easy to do. Continue rinsing. If eye irritation persists: Get med IF INHALED: Remove person to fresh air and keep comfortat call a Poison Center or get medical attention. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.	Remove contact lenses, if present and dical attention. ble for breathing. If problem persists,

3 Composition/Information on Ingredients

Hazardous Ingredients	CAS Number	Concentration Range %
Didecyl dimethyl ammonium chloride	7173-51-5	2.54
Alkyl dimethyl benzyl ammonium chloride	68424-85-1	1.69

4 First Aid Measures	3
Eye Contact:	Flush eyes with water for 15 minutes. Remove contact lenses if any.
Skin Contact:	Contact with concentrate may be an irritant to sensitive skin. If spilt in large areas of skin, rinse immediately with water and remove clothing. Wash skin thoroughly with soap and water.
Inhalation	If discomfort is experienced after prolonged exposure to vapors, move person to fresh air. Get medical attention if irritation persists.
Ingestion:	Get medical attention immediately. Rinse mouth with water. Do NOT induce vomiting. Drink glass of water to dilute product.

5 Firefighting Measures	
Suitable Extinguishing Media:	Water spray, normal foam, dry agent (carbon dioxide, dry chemical powder.)
Specific Hazards arising from the Chemical:	In a fire or if heated, a pressure increase will occur and the container may burst. Combustion products may include and are not limited to nitrogen oxides, carbon monoxide, and carbon dioxide.
Specific Protective Equipment and Precautions for Firefighters:	Firefighters should wear NIOSH approved self-contained breathing apparatus and protective clothing. If safe to do so, remove containers from path of fire. If involved in a fire, keep containers cool with water spray.

6 Accidental Release Measures

Emergency Procedures:	Keep area clear of personnel until area has been properly cleaned.
Personal Precautions/ Protective Equipment:	Slippery when spilt. To avoid accidents, clean up immediately and shut off source of leak, if safe to do so. Wear appropriate protective equipment to prevent any contamination of skin, eyes, and personal clothing. Provide sufficient ventilation.
Environmental Precautions:	If contamination of sewers or waterways has occurred, advise local emergency services.
Methods for Containment and Cleaning Up:	Contain spill with absorbent (soil, sand, or other inert material) or spill kit to prevent contamination of sewers or waterways. Neutralization agent is not recommended within building, as toxic vapors may be omitted. Properly dispose of used absorbents in accordance with local, state, and federal regulations.

7 Handling and Storage	
Precautions for Safe Handling:	Avoid skin and eye contact, inhalation and ingestion. Wash hands thoroughly after use. Keep out of reach of children.
Conditions for Safe Storage, Including Incompatiibiities:	Store in cool, dry place and out of direct sunlight. Store away from source of heat or ignition. Do not mix with other chemicals. Keep container closed when not in use, and check regularly for leaks.

See Section 10 for incompatible materials.

8 Exposure Controls/Personal Protection				
Control Parameters:				
Hazardous Ingredients	ACGIH TLV	OSHA PEL	NIOSH IDLH	
Didecyl dimethyl ammonium chloride	N/A	N/A	N/A	
Alkyl dimethyl benzyl ammonium chloride	N/A	N/A	N/A	

Appropriate engineering controls:	Good ventilation should be sufficient to control worker exposure to airborne contaminants	
Personal Protection		
Eye Protection:	Use protective glasses or safety goggles if splashing or spray-back is likely.	
Hand Protection:	Use protective gloves when used for prolong periods or if skin sensitive.	
Skin Protection:	Use apron if splashing or spray-back is likely.	
Respiratory Protection:	Use in well ventilated areas or local exhaust ventilation when cleaning small spaces.	
Hygiene Measures:	Always wash hands after handling chemical products, and before smoking, eating, drinking, or using the toilet. Wash contaminated clothing or protective equipment before storage and re-use.	

9 Physical and Chemical Properties

Physical State: Color: Odor: pH:	Liquid Yellow Lemon 7.5-8.5	Specific Gravity: Evaporation Rate: Solubility in Water: VOC (g/L):	1.0 < 1 Complete <6	Vapour Pressure (mm Hg): Vapour Density: Freezing Point (°F): Boiling Point (°F): Flash Point (°F):	< 17 mm Hg > 1 < 32 > 212 > 200
		< means less that	n >n	neans greater than	

Note: These physical data are typical values based on material tested but may vary from sample to sample. Typical values should not be construed as a guaranteed analysis of any specific lot or as specification items.

10 Stability and Reactivity

Reactivity:	No specific data
Chemical Stability:	Stable
Possibility of Hazardous Reactions:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to Avoid:	Avoid exposure to heat and light.
Incompatible Materials:	Slightly reactive or incompatible with oxidizers (e.g., bleach), strong acids (e.g., hydrochloric acid) and reactive metals (e.g., aluminum).
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
