Material Safety Data Sheet

Not classified as hazardous according to criteria of Worksafe Australia

COMPANY DETAILS

Company: Concept Amenities Pty Ltd
Address: 81 – 85 Malcolm Rd, Braeside VIC. 3195
Telephone: (03) 9580 9977
Emergency Telephone No:

IDENTIFICATION

IDENTIFICATION

Product Name: Oramint Toothpaste
Other Names: Kudos Spa Toothpaste
Manufacturer's Code: 6-KDS
UN Number: None assigned
Dangerous Goods Class: None assigned
Subsidiary Risk: None assigned
Hazchem Code: None assigned
Poisons Schedule: Not scheduled
Packaging Group: None assigned

USE

Oral Hygiene. Apply on brush and rub against your teeth. Should be done twice daily.

PHYSICAL DESCRIPTION AND PROPERTIES

Appearance: White paste with a spearmint odour
Melting Point: Not available
Boiling Point: Not available
Vapour Pressure: Not available
Specific Gravity: ca. 1.53
Flashpoint: Not applicable
Flammability Limits: Non Flammable, however, following evaporation of aqueous component, the dried residue may burn if ignited.
Solubility in water: Soluble

OTHER PROPERTIES No relevant data

INGREDIENTS

CHEMICAL ENTITY	CAS No	PROPORTION
Sorbitol	50-70-4	53%
Silicon Dioxide	60676-86-0	16%
Sodium Carboxymethyl Cellulose	9004-32-4	1.6%
Sodium Lauryl Sulfate	151-21-3	1.5%
Sodium Benzoate	65-85-0	0.1%
Ingredients determined not to be hazardous		26.8%

HEALTH HAZARD INFORMATION

DATE OF ISSUE: April 2009

REPLACES: N/A

FIRST AID MEASURES:

- Inhalation** None required under normal conditions of use. However, if breathing is affected, remove source of contamination or victim to fresh air. If Irritation persists, seek medical attention.
- Ingestion** Wash out mouth with water. If irritation develops, seek medical attention.
- Skin** Wash gently and thoroughly with water. If irritation develops, seek medical attention.
- Eye** If contact with the eye(s) occur, was with copious amounts of water holding eyelid(s) open. Seek medical attention if irritation persists.

Advice to Doctor: *Treat Symptomatically*

PRECAUTIONS FOR USE

Exposure standards (national): None Established

Biological Limit Values: No limits allocated

Exposure standard: No special engineering controls required. However, under industrial applications, provide sufficient ventilation to keep airborne levels below the exposure limit. Where vapours or mists are generated and exposure standards are exceeded, the use of respiratory protection, or a local exhaust ventilation system is recommended.

PERSONAL PROTECTION

Respiratory Protection: Not required under normal conditions of use.
Industrial applications: Refer to Australian standards AS 1716 and AS 1715. Filter capacity and respirator type depends on exposure levels and individual circumstances

Eye Protection: Not required under normal conditions of use. However, avoid eye contact.
Industrial Applications: The use of safety glasses as appropriate when handling large quantities. Refer to Australian Standard AS/NZS 1337 – Eye Protectors for Industrial Applications.

Hand Protection: Not required under normal conditions of use.
Industrial Applications: The use of PVC or nitrile rubber gloves recommended. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves – selection use and maintenance.

Body Protection: Not required under normal conditions of use.
Industrial Application: Suitable impervious protective clothing. Final choice is dependant on individual circumstances. It is advisable that a local supplier of personal protective clothing is consulted regarding the choice of material.

FLAMMABILITY

This product is not flammable. Ensure good ventilation.

SAFE HANDLING INFORMATION

DATE OF ISSUE: April 2009

REPLACES: N/A

PRECAUTION FOR SAFE HANDLING

Avoid eye contact. It is essential that all who come into contact with large quantities of this material maintain high standards of personal hygiene. i.e. washing hands prior to eating, drinking, smoking or going to the toilet. Build up of vapours or mist in the working atmosphere must be prevented. Ensure ventilation is adequate. Keep containers closed when not in use.

CONDITIONS FOR SAFE STORAGE CORROSIVENESS

Store in a cool dry place, out of direct sunlight. Avoid contact with incompatible materials such as strong oxidising agents

SPILLS

Small Spill: Mop up and wash residue to drain with copious amounts of water.

Large Spill: Contain and place absorbent material such as vermiculite, sand onto spillage. Collect and place into a suitable labelled container. Clean area with soap and water, collect residue and place into the same container. If large quantities of this material enter the waterways contact the Environmental Protection Authority, or your local Waste Management Authority.

DISPOSAL

Dispose of according to relevant government regulations.

FIRE/EXPLOSION HAZARD

This product is non-flammable. However, following evaporation of aqueous component, the dried residue may burn if ignited. As a water based product, if spilt on electrical equipment the product will cause short circuits.

Extinguishing Media: Use extinguishing media suitable for surrounding environment.
